

Testimonials

"I believe we are in an age where monitoring of activities, either by law enforcement or those we deal with, has become second nature. How many times have we seen a bad police situation end up on YouTube? Many citizens are recording, so why aren't we?"

--Chief Trevor Whipple, South Burlington PD, VT

"I think the smartest piece of equipment an officer can carry, other than a firearm, is your device."

--Ret. Sgt. Ron McCarthy, LAPD SWAT

"Our officers used the VIEVU during a recent homicide investigation. The video statements taken of several witnesses were very powerful. Our prosecutor has told us that those video statements of the witnesses at the scene have provided them with a very strong case. Often witnesses will recant their statements at a later date. The videos prevent that and give them a solid case. Thanks for a great (tool) product."

--Chief David Hall, Croswell PD, MI

"I've been in law enforcement for 15 years. I am a police officer and field training officer. I have seen "cop toys" come and go. Most of them end up in a drawer or trunk. Now that police complaints have gone national, we need a tool to help us and this is it. You can't park a dash cam in a house."

--Deputy Colin McHugh, TX

"Going on patrol without my VIEVU is like going out without my radio! I've come to depend on it and consider it as indispensable as any other piece of equipment I carry. It really paid for itself during my perspective and the defense tried his best to suppress the video, to no avail. A conviction after only 35 minutes of deliberation!"

--Ofc. G. Hanson, TX

Wearable Video Cameras for Public Safety

**One switch.
No wires.
Clip it on & Go.**

Mobile-Vision, Inc.

PVR-LE2

Software

Accessories

Specifications

Features

- Improved low light capability
- Enhanced image quality
- Digital Signature software security

All black body with optional green or black lens face

VGA 640 x 480

Weight: approx. 3.5 oz.

Dimensions: 3" x 2" x .75"

30 Frames per second

4GB memory

4 hours of recording

Benefits

- Environmentally Friendly—RoHS, WEEE
- Color Video & Audio
- Tri-clip design for multiple attachments
- Waterproof—IPX5 Standard
- Low memory & battery LED indicator
- On/Off switch—provides lens protection

System Requirements

Download via USB
Windows, XP, Vista, and 7.

Integrate Seamlessly with your L-3 Mobile-Vision DEP back office solution

VIEVU video will appear just as video from your Flashback2 would in your back office DEP solution.

Use VIEVU video just as you would any other video--capture, manage, store, CONVICT!

Simply plug the VIEVU into your existing back office PC using the provided USB cable and press the upload button on your Reader screen.

If and when a video is needed, simply search for it as you would any other video.

Just as with all files on your L-3 server, VIEVU video is completely secure and can be stored indefinitely.

**Don't have DEP? No problem, when you purchase your VIEVU through L-3 Mobile-Vision, you can also purchase our Flashback 2 Basic Viewer software which will allow you to download, store and manage your video.

Car Kit

The VIEVU Car Kit allows you to easily mount the PVR-LE2 to your windshield. The kit also allows you to charge the camera while driving.

The kit also can attach to a nonporous desk top surface at various viewing angles to record interviews, depositions or other work processes.

Bike Kit

Attach your VIEVU to a bicycle for bike patrol. Mounting easily on all makes and models of bicycle, the VIEVU now gives bicycle patrol officers the same sense of security that in-car officers have come to depend on.
